FOR IMMEDIATE RELEASE

--January 1, 2010, NAPLES, FL - The Newly Released UNINTENDED CONSEQUENCES: LESSONS FROM A LIFE ALMOST LOST by Bill Shaner uses practical wisdom to provide the path for the realistic achievement of happiness and peace of mind. What keeps you on the path is the practice of the 14 Universal Laws.

Twenty years ago Bill's life was inexplicably changed forever when he died and had a white light experience during a freak construction accident. Bill regained consciousness only to realize he was paralyzed from the waist down. Medivacked to the nearest trauma hospital, Bill underwent 13 hours of surgery to save his life. He survived but was told there was a 99% chance he'd never walk again. Not only did Bill learn to walk again, but he also launched into a profound spiritual quest. The tragedy eventually lead to extraordinary answers which Bill never realized were missing before his near-death and subsequent difficult recovery.

The book provides a message of inspiration and hope and appeals to audiences worldwide. The reader will find embedded throughout the pages a selection of insights, highlighted as "pull quotes." Many of these aphorisms have proven to be uplifting and worthy of contemplation for generations. Others, in the author's own words, are original distillations of his lived experience. Regardless of their origin, these quotes can be read on their own, independent of the tales, as a compendium of practical wisdom for daily inspiration. Should the reader wish to explore the *context* from which this wisdom comes, they will find in any given story the true-life adventures that have yielded each pearl. The collection reveals, once again, the universality of the human condition, and shows the direct connection between the personal and the transpersonal, the stuff of daily life and the wisdom of the ages. The focus of the book is on each reader, and the actions required at an individual level.
